Report on National Sanskrit Conference: NSC-2024

Overview

Sri Bhagawan Mahaveer Jain Evening College held a National Sanskrit Conference (NSC-2024) under the able guidance of Dr. Suneel K S, head of the Sanskrit Department. Known for its vibrant academic and non-academic activities, the department upholds the integrity and traditions of Bharatiya culture by organizing events beneficial to both students and teachers. This year, the department introduced an innovative approach to propagate aesthetic ideas related to the Indian knowledge system, making the academic year 2024-25 particularly special.

Pre-Conference Lecture Series

In the lead-up to the main event, the department conducted a lecture series on Vedant Shastra to honor the contributions of India's greatest philosophers. On May 14, 2024, Vidwan Krishnaraja Bhatt Kutpadi delivered an insightful lecture on the necessity of Vedanta in daily life. The audience was deeply moved by his divine thoughts, creating a profoundly spiritual experience. Additionally, Shri Vishnu Das from ISKCON discussed how Western philosophy is influenced by Madhvacharya's Dwaita Vedanta, highlighting the global admiration for Indian Vedanta.

National Sanskrit Youth Conference

On May 15, 2024, the department conducted the first National Sanskrit Youth Conference in the seminar hall, targeting enthusiastic young scholars. Dr. Suneel invited students, particularly from Arun Pre University, to present their research papers. The event received incredible appreciation from the audience, with ten selected presenters covering diverse topics such as Ayurveda and music.

Event Synopsis

At 4:55 PM, all guests took their seats, and the curtains of the First National Samskrta Youth Conference were drawn. The theme, "INDIAN KNOWLEDGE SYSTEMS," evoked a sense of pride among the audience. Dr. Suneel Acharya welcomed the gathering, and after a traditional inaugural ceremony, the key speakers delivered their sermons.

The main event featured ten presenters who were privileged to present their research papers. Topics ranged from Ayurveda to music, with one notable presentation titled "A Journey through Time: An Attempt to Understand the Evolution of Prime Ministerial Roles." The chief guest, Dr. Anand Kumar, Registrar Evaluation and Examination from Bengaluru City University, addressed the gathering, urging attendees to consider new ways to rejuvenate and mainstream Indian Knowledge Systems, now recognized as International Knowledge Systems.

Reflections

The presenters showcased expertise in their chosen fields, offering inspiring insights. Personally, I found the presentations and key speakers' discussions highly educational. The program was thoughtfully curated, catering to a wide array of interests and emphasizing the richness of our cultural heritage.

Conclusion

NSC-2024 was a resounding success, highlighting the depth and relevance of Indian knowledge systems. The efforts of Dr. Suneel K S and the Sanskrit Department in organizing such a transformative event are commendable. The conference not only fostered academic discourse but also instilled a renewed sense of pride in our cultural and intellectual heritage.
